

Easy Photoshare with BubbleShare!

Written by Administrator
Tuesday, 19 May 2009 14:48 -

I actually found a new possibility to share your photography with your friends and other photoblog users.

The free service is named: <http://www.bubbleshare.com/>

You have to register and login with your username and password to upload your photography. It`s easy way to present your photography.

You can present your photos with a scrolling view or simple view.

Best regards

Thomas
